

Ranadu GRAPHICS: another 'plotWAC' feature:

```
r <- setRange(Data$Time, 64000, 71000)
Plot1Data <- Data[r, c("Time", "ATX", "DPXC", "WIC")]
```

```
plotWAC(Plot1Data, legend = "right",
        ylim = c(-90, 10))
```
