Function illustrated:

1. Load the library
2. Construct a data.frame from a netCDF file
3. Restrict the time range

R code and result:

```r
DataR <- Data[setRange(Data, 103000,
    110000), ]  ## 10:30--11:00
plotWAC(DataR[, c("Time", "ATRL")])
```
